

# Hepatitis C

You can have it and not know it. Knowing and assessing your risk(s) will determine whether you need Hepatitis C testing and/or treatment.

## Hepatitis C Risk Assessment (check the boxes that apply)

- I share personal care and hygiene items such as razors, toothbrushes, clippers and scissors
- I share needles used for body tattoos and piercings
- I re-use and share tattoo ink and ink pots
- I share drug equipment such as needles, filters, tourniquets, water, syringes, cookers, alcohol swabs, acidifiers
- I share crack pipes and/or straws used for snorting
- I received blood and/or body organs that were not screened for hepatitis C
- I had an accidental or occupational needle stick injury
- I was born to a mother living with hepatitis C at the time of her pregnancy and/or delivery
- I had unprotected sex that involved blood contact

Resource: This information was provided by CATIE (Canadian AIDS Treatment Information Exchange)

**IF YOU CHECKED ONE OR MORE RISK FACTORS, YOU MAY HAVE HEPATITIS C INFECTION AND NOT KNOW IT YET. GET TESTED TODAY!**

To know if you are at risk for HIV, please see opposite side.

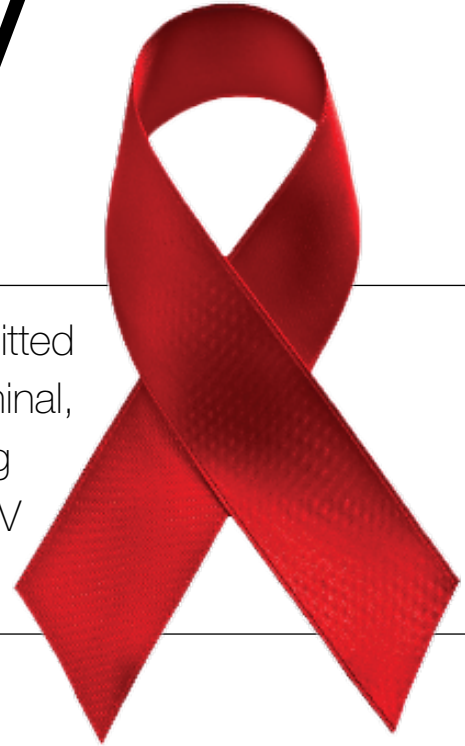

**Bloom Clinic**

# HIV

Human Immunodeficiency Virus (HIV) is transmitted through 5 bodily fluids: blood, breast milk, seminal, vaginal and anal fluids. Knowing and assessing your risk(s) will determine whether you need HIV testing and/or treatment.

## HIV Risk Assessment (check the boxes that apply)

- I have had unprotected vaginal or anal sex
- I have multiple sexual partners
- I share needles and/or other equipment used to inject drugs including steroids
- I share and/or re-use needles or ink used for tattooing
- I share needles or jewellery used for body piercing
- I share needles used for acupuncture
- I have had oral sex without a condom or dental dam
- I share sex toys
- I was born to or breast fed by a mother living with HIV at the time of pregnancy, delivery and breastfeeding
- I had an accidental or occupational needle stick injury

Resource: This information was provided by CATIE (Canadian AIDS Treatment Information Exchange)
